

# Incident and Injury Free Thought Provoker

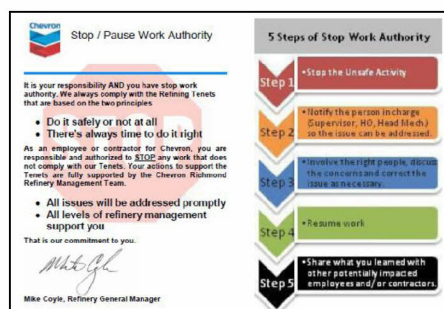

## Stop/ Pause Work Authority

**If you saw something unsafe happening in your area, what would you do?**

Are you willing to have difficult discussions with people who work around you? What about with your loved ones at home?

### Take Action

- Speaking up can be uncomfortable. How will a person react if you are stopping them during an important job? Think about it this way... Everyone has someone at home who cares about them – a family member, a friend, or even a pet. When you speak up, you are helping us all to return to our loved ones the same way we came to work. Something we all appreciate.
- [What's your Reason for Being Safe?](#) Share your reason for being safe with the IIF Leadership Team. Each week, for the duration of the Turnarounds, the IIF Leadership team will draw 20 names to receive a pair of movie tickets.
